### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

**DETAILED ACTION**

1. Claims 1-20 are still pending for examination

***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. § 121:
  - I. Claims 1-9 and 17-20 drawn to an apparatus and method comprising the steps of: a) receiving a request for logging into an account on a web site; b) recursively performing the following steps: i) saving the request into instruction file ... ; ii) transmitting the request for logging into the web site ...; iii) receive response from the web site ...; and transmitting request, classified in Class 713, subclass 182.
  - II. Claims 10-16 drawn to a computer system comprising a server and an administrative client, the server comprising: a) a site database ...; b) an instruction set database ...; c) an authentication database ...; and a login unit, classified in Class 713, subclass 155.
3. Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed of Invention I, claims 1-9 and 17-20, does not require the particulars of the subcombination: a) a site database ...; b) an instruction set database ...; c) an authentication database ...; and the subcombination Group 2, claims 10-16, does not require: steps of: a) receiving a request for logging into an account on a web site; b) recursively performing the following steps: i) saving the request into instruction file ... ; ii) transmitting the request for logging into the web site ...; iii) receive response from the web site ...; and transmitting request.

Art Unit: 2153

4 For example, the searches for these two inventions would not be co-extensive because these groups would require different searches on PTO's classification class and subclass as following:

1) The Group I search (claims 1-9 and 17-20) would require use of search class 713, subclass 182 (which would not required for the group II).

2) The Group II search (claims 10-16) would require use of search class 713, subclass 155 (which would not required for the group I).

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that the required for response to this requirement is **30 days, not one month.**

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Krisna Lim whose telephone number is 571-272-3956. The examiner can normally be reached on Monday to Wednesday and Friday from 7:30 AM to 4:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenton Burgess, can be reached on 571-272-3949. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
